## Children are Little Scientists: Encouraging Discovery Plan

Slowly, they become more and more confident until they ask us to remove the training wheels. When a toy, game or anything else is broken, see if it can be repaired, then make that process a lesson itself.

## Every Child Is A Scientist

The first group includes those who will teach you the basics of scientific thinking, writing, and the basic concepts of science in my case, genetics. Experience is definitely a great teacher and I trust that sharing mine will help you deal with your challenges and struggles as a researcher.

## Children are Little Scientists: Encouraging Discovery Plan

Lessons such as these continue as your child grows up, until they are grown.

## Every Child Is A Scientist

The children were given two pairs of new beads.

## The Young Scientist Investigates

Make notes every so often about what you see. Yes, these are important, but I have come to realize that they only comprise a small fraction of the attributes that could lead you to success in a research environment. When eating, note what your child most enjoys.

## Scientist Interview: Investigating Circadian Rhythms with Michael W. Young

In a video interview, Dr. It is intended that children learn through reading as well as through investigation. In his subsequent paper, titled Experiments and Calculations Relative to Physical Optics 1804, Young describes an experiment in which he placed a card measuring approximately 0.
