## UNCLOS I 1958

Communications relating to the announcements of IOMAC meetings, workshops, training programmes and other activities, are regular items of such contact. Today, it continues to be engaged in this process, by monitoring developments as they relate to the Convention and providing assistance to States, when called for, in either the ratification or the implementation process.

## The South China Sea Disputes: A clash of international law and historical claims

Because of their porous nature, recovered nodules retain a great deal of water.

## International Disputes

Its main task is to create a fair and effective, generally accepted and implemented legal framework for the shipping industry. Fifteen million tons in 1938, the world fish catch stood at 86 million tons in 1989. Analysis of the samples in 1891 showed the Pacific Ocean nodules to contain important metals, particularly nickel, copper and cobalt.

## United Nations Publications prepared by the Division for Ocean Affairs and the Law of the Sea

. The books and articles within each category are listed alphabetically by author and a complete author index is also included. It will be resolved on the basis of five existing historical agreements between the governments of Brunei and Sarawak, and where appropriate, on the watershed principle.
