Genocide essay

Although Ukraine has undergone immense political and economic transformations during 1991—2004, it has maintained a young age at first birth and nearly universal childbearing. A major reason for this is the fact that the urbanized and industrialized regions in the East and South of Ukraine suffered most from the economic crisis in the 1990s, which in turn led to the spread of unemployment, alcoholism, and drug abuse, thus setting the conditions for wider spread of the epidemic.
