The juxtaposition of the archeological artifact and the imposing polished Chinese granite circle in which it is encased signals the complex meanings embedded in the sculpture.

## From Crossbow to H.Bomb by Bernard Brodie

FROM CROSSBOW TO H-BOMB Dailey repurposes an ancient Chinese bolt—the projectile fired from a Bronze Age crossbow—thereby transforming a prehistoric weapon into a work of modern art.

## From crossbow to H

This really is an interesting, even a fascinating look at one aspect of history and the Brodies deserve a lot of praise for what they've done and how they've done it. Possible ex library copy, will have the markings and stickers associated from the library. The authors say this book is about the application of science to warfare, but it's just a laundry list of factoids devoid of analysis or insight.

## From crossbow to H

Chemistry was harnessed to create shooting flames, rather than to create medicines or means of transport. Accessories such as CD, codes, toys, may not be included. Brodie have produced a fascinating, and not too morbid, work of history of weapons, from the most primitive to the most sophisticated -- and horrifying.
