With supplies of the successful serum running low, Campbell isolates a derivative of a species of flower from which the formula can be synthesized and with Crane's help is determined to find its source. It would be hard to muster support for Diem in a country where he was at odds with 90% of the population and was considered a relic of a French regime despised by those wanting independence. White then authored six 'Fable' books, in the form of the traditional African 'round the fire' storytelling, incorporating Christian moral lessons.
