Youth Entrepreneurship

Labour-market training and work-experience programmes all aid in continuing the initiative and driving business growth for youth in disadvantaged areas. Working towards Youth Entrepreneurship programs can help solve as well as avoid a lot of problems that are currently staring at the countries and pave way for a better future and progressive societies world over. This can be seen with Apple; while Apple remains a lifestyle brand that many people happily pay a premium for, they have not been considered the top of the tech field for some time.

8 Ways To Enhance Youth Employment

Even if they have a similar mission statement and unique value propositions, they target a new niche or are expressing their brand differently. Youth entrepreneurship has an impact on social as well as cultural and economic progress of the society.

Youth Entrepreneurship

As per ILOs prediction approximately 660 million youth will be seeking employment by 2015. Millions of educated and able young people around the world are unemployed making youth employment a crucial issue to this century.

Youth Entrepreneurship

Technological revolution has changed the face of lives of people bringing healthcare, information and connectivity to even the most remote areas that were hereto isolated. Using the UYVCF as a case study, this study examines the level and determinants of youth participation in the fund and evaluates the operations of the fund against the initial guidelines and design as stipulated in the Aide memoire¹ between the Ministry of Finance Planning and Economic Development MFPED and the participating banks. Results indicate that participation in the youth fund program is positively and significantly influenced by the age cohort of the youth entrepreneur the older youth aged 26-35 years are more likely to access the fund compared to the younger youth 18-25 years, location of the business urban based businesses have a higher chance of accessing the fund, type of business enterprise those in services are more likely to access the fund loan and business maturity.

Decent Jobs for Youth

Netflix, for example, disrupted the video rental industry to the point that the neighborhood video store is basically a thing of the past.

The Role of Entrepreneurship in Job Creation and Economic Growth

New businesses may start by bringing an existing product to a new group of customers, but at some point, they will begin to draw customers away from other businesses if they are going to succeed. Such connections can really make a difference. To tackle weak skills and knowledge transfer, it is crucial to foster peer-to-peer support networks.
