## What Are These Tiny Bugs on My Window Sill?

I can sweep a pile up at night and they are right back the next day. People with it I have it occasionally; cancer's a bitch may initially think that insects are causing it, understandably.

## The Many Types of Bugs, Pests, and Other Creepy Crawlies in Your Home » Wassup Mate

However, once you're looking at the part of your skin where it feels like something is walking on you but you see there's nothing there, then you understand that it's a sensation of your nerves. Whatever they were, I killed them.

## Invisible bugs and other creepy creatures that live with you (1992 edition)

I can't move out because it's extremely difficult to find something. Somehow these bug bites continue to appear each morning so something is biting her and then disappearing.

## Bibliography

You will also see many! I just want to find out what I am up against.
