Altruism, Metalaw, and Celestics: An Extraterrestrial Perspective on Universal Law

A refugee is a technically stateless person — he is neither citizen or national nor subject of any foreign government on Earth. We are much more likely to interact with them remotely.

Based on feedback from you, our users, we've made some improvements that make it easier than ever to read thousands of publications on our website. Estrays may be impounded as public nuisances and destroyed after thirty days if no owner makes a claim. Moreover, no allowance can be made for burden reduction in flight or associated with surface conditions on Mars.

Legal Status of the Airspace in the Light of Progress in Aviation and Astronautics, The

In a rude state of civilization the robbery of strangers is generally considered as honorable. This area was recently extended as far as Santa Lucia in the West Indies, thus permitting firings over more than 1,600 miles, and it is now proposed to extend it over the Atlantic to Ascension Island off Africa, more than 4,000 miles from Florida.

Legal Rights of ETs

This is a very simple means to ensure both the safety and the equality of interstellar partners. The flight of some of these balloons over the U.

Indeed, planetary protection policies have centered on the concept of a period of biological exploration, during which particular planetary bodies are accorded protection from contamination so that studies of their biological potential can proceed unhindered by terrestrial contamination. Haley made a number of exceptional contributions to the history of modern astronautics. They could, however, confound the results from life-detection experiments.

Metalaw

A conference of astronomers and other scientists at the Byurakan Astrophysical Observatory USSR in September, 1971, arrived at the following conclusion regarding intelligences on other worlds: The practical and philosophical significance of a successful contact with an extraterrestrial civilization would be so enormous as to justify the expenditure of substantial efforts. As Haley observed, were we to treat the aliens as we desire to be treated, it could well cause their serious injury or even destruction.

Metalaw

Another fascinating xenological topic is a little-known discipline called metalaw. Are they conquering villains, or saints bearing gifts? Both the Puccetti Test and the Bruller Test leave much to be desired.

Private Law, Public Law, Metalaw and Public Policy in Space

It is the task of metalaw, in part, to articulate these responsibilities in terms of presumed universals of justice common to all. Federal agencies will jockey for jurisdiction, based on entwining statutes and overlapping authority that would put a Gordian knot to shame.
