Early Christian Theology As philosophy was developing from the Pre-Socratics through to Plato and Aristotle, another development was taking place among the Israelites or the ancient Jews.

Arguments for the Existence of God

The best explanation for why every culture has had theistic beliefs is that those beliefs are true. In short, on the above picture Darwinian evolution will not meet condition e for explaining away design, which is not itself a shortcoming of Darwinian evolution.

The 7 Most Intriguing Philosophical Arguments for the Existence of God

Science need not be seen as exhausting the space of legitimate conclusions from empirical data. Hence, to begin to act as if p were true is at least to embark upon a course of action that makes belief in p more likely.

Reason and the Existence of God

According to Kant, we can have no knowledge of anything outside of experience, outside the scope of the spatio-temporal-causal order. Our belief in reason cannot be justified by reason, since that would be circular.

Natural Theology

However, like moral realists constructivists want to see moral questions as having objective answers. Ancient Jewish and

Moral Arguments for the Existence of God (Stanford Encyclopedia of Philosophy)

Which do you think is the most important one? Nevertheless, there are real questions about the plausibility of these stories, and thus, some of those convinced that moral realism is true may judge that moral knowledge provides some support for theistic belief. This began to change with 1033 — 1109. Certainly both parts of the highest good seem difficult to achieve.

Kant's Philosophy of Religion (Stanford Encyclopedia of Philosophy)

If it were slightly less, the Big Bang would have quickly led to a Big Crunch in which the universe collapsed back onto itself. Arguments about the second premise then may require comparison between theistic explanations of morality and these rival views. Some advocates see design arguments as inferences to the best explanation, taking design explanations—whatever their weaknesses—as *prima facie* superior to chance, necessity, chance-driven evolution, or whatever.
