## Journal of Public Health Research

The colonial structure, which sought to assimilate Indigenous peoples into the dominant Euro-Canadian culture, has been largely responsible for destabilizing the determinants of Indigenous health. CDC monitors health, informs decision-makers, and provides people with information so they can take responsibility for their own health.

Among Inuit adults, obesity was also higher than among non-Indigenous Canadians; results for other cause-specific outcomes were not statistically significant.

## Journal of Public Health Research

It is a starting point for new preventative approaches, and a new awareness around wellbeing, that will develop and strengthen in the coming years. Inequalities in disability and poor oral health inability to chew were particularly pronounced between socioeconomic groups by employment status, educational attainment, and income level. How employment can affect health Paid work has the potential to improve health and reduce health inequalities by providing higher incomes and by meeting social and psychological needs.
