Our aim was to get a thorough overview of the way in which they normally carried out their armed robberies. We also were quick to respond to any fear expressed that we might be working for the police by denying that this was the case, showing them our university identification cards, and pointing out that many other offenders had talked to us without incident. Entertainment and color were not, of course, among the authors' intentions, so I can't fault them.

Decker are both Professors of Criminology and Criminal Justice at the University of Missouri--St. While this does not cover all of my notes, it covers some of the key elements regarding the construction of the study and some of the results.

## **Analysis Of Armed Robbers In Action: Stickups And Street Culture**

But there were fewer than 46,000 adult felony convictions for robbery, of which almost all--more than 40,000--resulted in some incarceration in a jail or prison. At the time of the study 1994 , the city had 6,025 incidents of armed robbery and this was undoubtedly a conservative figure, since the majority of victims are fellow criminals, who are unlikely to report the theft of their marijuana or crack cocaine.
