Real Estate and Urban Development Viewpoint: Introduction to Global Urban Indicators

A number of studies Yablokov, 2018; Bobrov, 2011 on urban GI are dedicated to its area assessment. And if you do decide to start that business, why not move to the city next door, where labor costs are lower? The population would presumably be mobile, and so the impacts of policies on utility would be capitalized into property values.

Urban unemployment, informal sector and development policies

Too many regions suffer from internal competition.

Economic Development Research

More than 50% of the forested area is presented by parvifoliate species, dominated by aspens and birches almost 65% of all forest. Would we be better if we were allowing more people to take advantage of these opportunities even if that meant you couldn't do quite as much in terms of supporting those newcomers through state intervention.

Urban Growth

European Review of Economic History, 12 1 :97-131. What might Palo Alto look like if it were easier to develop land there? Makes for a better productive process.
