

Atlas of the Exclusive Economic Zone, western conterminous United States

Dept. of Interior, U.S. Geological Survey - Relative sea

Description: -

-
North Pacific Ocean -- Bathymetric maps
Pacific Coast (U.S.) -- Bathymetric maps
Ocean bottom -- North Pacific Ocean
Ocean bottom -- Pacific Coast (U.S.)
Magnetic anomalies -- North Pacific Ocean
Magnetic anomalies -- Pacific Coast (U.S.)
Seismic prospecting -- North Pacific Ocean
Seismic prospecting -- Pacific Coast (U.S.)
Atlas of the Exclusive
Economic Zone, western conterminous United States
-
Miscellaneous investigations series (Geological Survey (U.S.)) -- map
I-1792
Miscellaneous investigations series -- I-1792
Atlas of the Exclusive
Economic Zone, western conterminous United States
Notes: Bibliography: p. 3

The US EEZ Program: Information and Technology Needs

Geological Survey of Canada, Memoir 148, 69 p.

References

Rock properties such as lithol This geologic map database for the El Mirage Lake area describes geologic materials for the dry lake, parts of the adjacent Shadow Mountains and Adobe Mountain, and much of the piedmont extending south from the lake upward toward the San Gabriel Mountains This data set maps and describes the geology of the San Bernardino North 7.

Statistics

The side-scan sonar surveys were navigated with a combination of GPS and Transit satellite navigation, with Loran-C tracking used between satellite fixes. This acreage could sequester about 23. Transmission lines connect the US, forming corridors that pulse in every direction across the continent.

Digital data for sediment thickness in the deep

The location in 3 dimensions and a lithological description of each sample is included wit This metadata file cdafldpl. In 1986 and 1987, Pelagos Corporation of San Diego now Racal Pelagos undertook a bathymetric survey of Mono Lake in eastern California for the Los Angeles Department of Water and Power DWP. Domestic poultry demand has recently displaced a significant amount of beef and pork consumption—more poultry is consumed than either beef or pork, though less than both combined.

Cascadia Structure

Ocean Sciences Meeting Supplement OS1. Acoustic travel times were converted to depths by first calculating a regression equation from the interval velocity versus depth data of Connard and others 1984. Geological Survey of Canada, Memoir 228, 86 p.

Cascadia Structure

Contents: Sonar mosaics and geologic interpretations and bathymetry -- Seismic profiles -- Magnetic profiles.

USGS: USGS Geoscience Data Catalog: United States

This cover shows the initiation locations of the debris flows. Projected losses will be greatest in regions that are already poorer on average, increasing geographic inequality as value transfers from the South and the inland US to the Pacific Northwest, the Great Lakes, and the Northeast.
