EUGENIE: Ah, the fancy is already in my heart! In any case, what would it matter to Nature if the race of man were extinguished? Since we believe a cult necessary, let us imitate the Romans- actions, passions, heroes- those were the objects of their respect. Prefazione di Simone De Beauvoir, Il Saggiatore, 1978. But if all the errors you speak of are in Nature, why do our laws oppose them? DOLMANCE: 'Tis only the first encounter that taxes, no sooner has a woman tried the dish than she'll eat no other sauce! Do frig her, Madame Saint-Ange, she'll feel the pain less. EUGENIE: But, Dolmancé, what of charity and benevolence? It cannot be that nature intends the spermatc fluid only for reproduction, else she would not permit its spillage.

## **Simone de Beauvoir**

Est un'òpera pretziosa ca oferit no isceti s'istòria personale de s'isritora, ma puru sa testimonia direta de s'atmosfera de sa dibata culturale acumpridu in Frantza de is annos trinta finas sa fine de is annos sessanta. Cinsel tabular ve olmazsa olmaz ahlak bekçiliğinin kuyusunu kazan ve insanın en derinden sakladığı kendi sırlarını bile günyüzü eden Marquis de Sade bence anlaşılmadı ve uzunca da anlaşılmayacak. Simone de Beauvoir nos trata de explicar como El Marques de Sade pensaba, nos ayuda a interpretar todo lo que dice en sus libros.
