Treasures from the Rare Book Room: The Oldest Book in the Library

Secundo dicit quodad certifi- candum te ne error concingat non debes folummodo occn- pari. Before practicing Medicine in Venice, Oddo degli Oddi 1478-1558 taught classics Greek and Latin at the University of Padua.

Public Health Collection

The influence of his Qanun can hardly be overestimated.

44428725

Based on the translation of Gerard of Cremona, edited and revised by Andrea Alpago of Belluno, who also included an extensive glossary of Arabic terms no edition in the original Arabic was printed until 1593. Links and information are up-to-date when published but are not updated after publication. Rare first and only edition of a commentary on book I, fen section I of Avicenna's Canon, including the Latin version of the text by Andrea Alpago and Jacob Mantino.

University of Glasgow

Moreover, it offers some interesting insights into the social history of medicine.
