Everyday Study Skills

Working in pairs, with one student as recorder and the other as interviewee, students can plan and then draw their ideal studying environment. They are flexible and accommodating to my child's activities.

Study Skills Guide: Study Tips, Strategies & Lessons

A Saturday afternoon spent playing outside may pass in a blur or stretch into a summer's worth of adventures.

Study Skills Practical Articles, Tips, Assessments, Curriculum

Establish a list you can agree upon. Encourage them to answer the questions fully and thoughtfully. Helping your Child Prepare for a Test Here are some simple, practical tips on how to help your child.

Study Skills: Tips and Activities for Elementary School

Activity Six: Where Does the Time Go? Don't get discouraged, it isn't magic! The Importance of Setting Goals For students to be successful in your class and in the years to come, they must learn the process of establishing a goal, and creating and following through on a plan to accomplish that goal. Then have students focus on Activity Two in the Study Skills: Setting Goals printable. Please choose the country or region in which you would ordinarily be resident.

Top 10 Study Skills

Share the Learning Have students make posters or flyers with tips and advice about study skills, and post them in the hallways for the rest of the school to see. Go over last week's formulas, charts, essays or chapters while you're pushing on with this week's. The next day in class, ask each student to write in his or her journal about what was learned from this assignment.

Study Skills, Study Tips & Study Strategies

To help students become more effective in college, here are some helpful external links on how to become a better student. However, each subject you study is unique and requires a slightly different learning approach.

Everyday Study Skills

Activity One: Setting Priorities From soccer practice and spelling homework to family meals and TV, each day is busy and full. Activity Four: My Study Plan Discovering the best approach to studying is a personal process. Activity Five: Keeping Track of Time For young children, time is elastic.

Top 10 Study Skills

Our certified Sylvan teachers will challenge and inspire your child. With this follow-up activity, students look closely at their time sheets and make observations about how the choices they make determine the ways in which they spend their time.
