### The Informal Blue Economy: East Africa's Silent Shark Killer • The Revelator

A number of measures were taken by local authorities to ward off the sharks, but none were really effective. One of the records of the shark, from Mozambique's Ponta do Ouro Partial Marine Reserve, suggests that the species benefits from some degree of protection within a large coastal marine protected area MPA. Sarah Waries of City of Cape Town Shark Spotters program said the shark seems inquisitive.

### Great White Shark Diving and Conservation

The Sharks already in the area and the crew on the boat work hard to attract the sharks and keep them interested in the boat and the divers in the cage rather than looking for prey. They will show you how to distinguish between a male and female shark and how to identify a specific shark by its unique dorsal fin and scars. Shark diver and guide Gary Snodgrass was forced to change the name of one of his tours a few years ago because sightings of certain species had become rare.

### Orcas surround 'monster' great white shark during attack

Because of what happened to me at the boat, I couldn't even go inside the water to see the sharks - also the people who went inside water couldn't see a thing as visibility was 0-1.

### Great White Shark Diving and Conservation

During the wars, a large number of air and marine disasters took place where the human victims became the prey of the oceanic whitetip.
