Epilepsy Research 66: 23-44, 2005. After 18 months follow up, the patient was well and disease free. Nevertheless, timely debridement of infected tissues is associated with improved outcomes.

Metabolic encephalopathies : therapy and prognosis : postgraduate course of the Pierfranco e Luisa Mariani Foundation, Milan, Milan State University, 1

We assembled a cohort of 308,297 radiation-monitored workers employed for at least 1 year by the Atomic Energy Commission, AREVA Nuclear Cycle, or the National Electricity Company in France, the Departments of Energy and Defence in the USA, and nuclear industry employers included in the National Registry for Radiation Workers in the UK.

Metabolic Encephalopathy

Il progetto si propone di: i studiare le caratteristiche di IT indotta da una breve ischemia transitoria TIA in modelli sperimentali di ischemia cerebrale; ii di chiarire i pathways e i mediatori coinvolti e che possono quindi rappresentare possibili target terapeutici. Una raccolta dati ad hoc con la collaborazione delle associazioni dei pazienti ha messo in evidenza quali sono i bisogni di ricerca clinica dei pazienti dal punto di vista dei pazienti stessi.
