## Noble landownership in 18th

More recent scholarship has shown that the actual selection of the metropolitans was the result of various pressures at court and in the church. In the 16th century, Orthodox bookmen composed numerous new lives of saints mostly Russian and liturgical compositions, and they began to create native variants of the Greek traditions of monastic spirituality and polemic Iosif Volotskii, Nil Sorskii, Vassian Patrikeev. Many still adhere to the popular opinion--based on a Senate report of 9 December 1730--that the law was often infringed.
