**An Inquiry Into the Human Mind on the Principles of Common Sense: A Critical ...**

Accordingly he gives up the question as to the mode of origination and the source of perception as completely insoluble; and although altogether unacquainted with Kant, he gives us, as it were, according to the regula falsi, a thorough proof of the intellectual nature of perception really first explained by me as a consequence of the Kantian doctrine, and also of the a priori source, discovered by Kant, of its constituent elements, space, time, and causality, from which those primary qualities of Locke first proceed, but by means of which they are easily constructed. An inquiry into the human mind, : on the principles of common sense.
