Hershey's legend, without the sugarcoating

If you know of missing items citing this one, you can help us creating those links by adding the relevant references in the same way as above, for each refering item. When Vanderbilt, the most powerful and by far the most wealthy man in the entire country, is looking for a way to stay on top of his rivals, he and young Rockefeller strike a freight deal. Comments do not represent the views of Reason.

Stanford, Hopkins, Huntington, Crocker rode railroads to big profits

See about how to correct material in RePEc. Seeing this early, Jay Gould's program to expand the Missouri Pacific precipitated a construction spree unparalleled in history, one that we have still not undone.

THE MOST HATED MAN IN AMERICA A century ago it was Jay Gould, the Robber Baron. He now turns out to have a few redeeming qualities.

Private charitable contributions in the U. Press accounts began to appear worldwide. Me and my mates have been saying this for years, even comparing it to the gold rush.

The Anatomy of Prejudice: Origins of the Robber Baron Legend

We could just give it a medal right away, it seems. Capitalists fight for profits on two fronts. He was self-taught in surveying and in his late teens he was employed making maps of counties in New York State.
