## Ontario Centre for Climate Impacts and Adaptation Resources

The data is derived from several GCM and RCM models, downscaled projections and gridded observations. The Hydro-Climate Dashboard adds hydro-climate data sets to water level information, allowing users to directly compare the Great Lakes water levels with the primary drivers of their fluctuation. The resources are indexed so that users can easily locate climate data by specifying parameters, indices, downscaling method and scale of interest.

## Toronto Ontario Canada Climate Statistics, with Monthly Temperatures, Precipitation, & Snowfall, including Toronto Extremes

Great Lakes Water Level Dashboard The National Oceanic and Atmospheric Administration NOAA has developed the Great Lakes Water Level Dashboard and the Great Lakes Hydro-Climate Dashboard for use by practitioners in monitoring lake levels and forecasts for the Great Lakes. The support desk can be reached via or phone: 1-833-517-0376.

## Display and download climate data

OCDP: Ontario Climate Data Portal The Ontario Climate Data Portal OCDP was recently launched to ensure technical or non-technical end-users e.

## Toronto Ontario Canada Climate Statistics, with Monthly Temperatures, Precipitation, & Snowfall, including Toronto Extremes

This portal also contain projected IDF curves. It includes global and regional climate change projections.

## Toronto Ontario Canada Climate Statistics, with Monthly Temperatures, Precipitation, & Snowfall, including Toronto Extremes

If you have any questions or concerns, please [Contact Us](#). Ontario CCDP incorporates the high-resolution 25 km x 25 km climate projections developed by the [at the](#) using the PRECIS modeling system.
