For poster session details, please see pages 162-165. Astrocaryum Brazil: Rio de Janeiro: Cabo Frio: Boca da Barra cf.

Stratigraphy, depositional environment, and cultural significance of holocene sediments in patterned wetlands of central Veracruz, Mexico, Geoarchaeology

In other wetlands that were surveyed and cored, but not studied here, rock alignments are common at wetlands with lower unit organic strata similar to Media Luna and Pichol. . Studies such as the one described here provide evidence for the impact of European colonization and the slave trade on the genetic makeup, as well as the cultural identity, of populations in Latin America.

Northern Belize

.

The Maya Lowlands Region of the Maya Civilization

We'll focus on how faculty and students can author story maps, and how to use Story Maps as communication and assessment tools in your WS 3-1 Bringing GeoCapabilities to Geography in Higher instruction.
