In stead with american valves a common problem was to already pull the rod so when the air was finishing you did try pulling the rod but the reserve was already gone.

Alexander McKee (author)

He was ever alert to plain-wrong, biased, distorted or sloppy reports and hidden agendas; wickedly delighting the more so as a self-educated man in criticising and exposing assertions that did not fit the evidence. In the , McKee served in the and wrote war poetry. They were spring loaded, so it was impossible to pull by error the rod until the pressure had dropped below the spring-calibrated pressure.

Italian Frogmen (combat swimmers)

Among his targets were those who tended to emphasise media-image-managment, the accumulation of personal wealth and career progression over both personal integrity and respect for other people's contributions.

His vision already detailed most of what later became reality, even to the opening of the new Mary Rose Museum, and much of what he wrote is reiterated in publications by later authors. Equally, many established experts, often highly educated people and indeed experts regarding the theoretical aspects of their disciplines, but whom he considered scandalously remiss when they complacently failed to complement such theoretical understanding with practical knowledge as a way to test their theories empirically. He gleefully highlighted all the many lapses of integrity that he found.
