Late Cretaceous Gastropod Egg Capsules from the Netherlands Preserved by Bioimmuration

Byers, and Geological Survey U.

Nilsson, 1827. Petrificata suecana formationis cretaceæ, descripta et iconibus illustrata

Charlier Moments of the linear velocities. Geologisches Jahrbuch, Reihe A, 157, 121—249. Usually, the eggs are closely spaced with contiguous borders, but some eggs are isolated and others are superimposed on one another .,

Biogenic

During the latest early Campanian, a diverse vertebrate assemblage inhabited the shallow coastal waters of the Kristianstad Basin, southernmost Sweden.

Die Nomenklaturfrage der Belemniten im Senon und die stratigraphischen Zonennamen

Freidenfelt Die Eutnahme der Wasserproben geschah von einem verankerten Boote aus mit einem PETTSEsoN'schen Wasserschöpfer, welcher durch gütiges Entgegenkommen des Herrn Professor Wallengren zu meiner Verfügung gestellt wurde.

Nilsson, 1827. Petrificata suecana formationis cretaceæ, descripta et iconibus illustrata

I shall preliminarily examine the result of such an investigation. Ueber die physiologische Leistungen und die Entwicklung des Grundgewebes des Blattes, von E. On some undescribed tracks of invertebrate animals from the Yoredale rocks, and on some inorganic phenomena produced on tidal shores, simulating plant remains.

Otto Torell

Undersökningar öfver den elektriska ljusbågen, af G.

Nilsson, Sven; Petrificata Suecana Formationis Cretaceae Descripta et Iconibus Illustrata. Londini Gothorum, 1827.

In der distalen Hälfte des Unterschenkels inseriert er etwas an der Fascie des Gastrocnemius externus; die hauptsächliche Insertion erfolgt an der Sehne des Gastr, externus.

Full text of universitets

Afterwards I found that, for a proper discussion of the results, it was necessary to exclude all stars fainter than the sixth magnitude, because it is an essential demand to the material used, that all stars between given magnitudes are considered in the investigation.
