Smart manufacturing in intelligent digital mesh: Integration of enterprise architecture and software product line engineering

Panorama : nettavis for Høgskolen i Molde. Based on first-hand experience, here are the top five challenges to digital transformation.

Advances in Production Management Systems. Initiatives for a Sustainable World: IFIP WG 5.7 International Conference, APMS 2016, Iguassu Falls, Brazil, September 3

The paper presents case studies on the application of the Triple Layered Business Model Canvas, which allows for relevant insight into how firms account for economic, environmental and social values. L'objectif de ce groupe de travail a été de réunir des chercheurs de différents domaines de l'informatique pour réfléchir aux divers aspects de la mise en œuvre des systèmes coopératifs.

Digital transformation, by its very nature, upsets a lot of apple carts. Détection des Dépendances entre Activités dans les Processus Métier : Application aux Parcours de Soins.

Digital lifecycle management

Chan 503-510 Supply Networks and Supply Chain Management Peter Jensen, John Johansen, Brian Waehrens, Md. Hertzberger, Design of the DIMS architecture for PRODNET, Proceedings of PRO-VE'99 - IFIP Int. In Proceedings of the International Conference on Intelligent and Cooperative Information Systems ICIS'93, pages 256-265.

An ontological approach to representing the product life cycle

. Determine what are the ten to fifteen that would allow us to serve and sell to them more effectively. Making sense of organizations in globalized clusters.

5 Top Challenges to Digital Transformation in the Enterprise

In Proceedings of the 5th International IFAC Workshop on Intelligent Manufacturing Systems, IMS'98, pages 49-54, Gramado, Brasil, Nov 1998. The growth of interest in corporate sustainability performance has brought attention to the importance of accounting and transparency across economic, environmental and social dimensions. Cases from a high cost location are presented to demonstrate how innovation takes place in regional and global supply chains.
