Jun Shiomi

Shiki eventually receives word that Fujino killed a passerby unrelated to her tormenters and, disapproving of such senseless slaughter, vows to kill her.

Shukaku

The quality is revealed in the fine details, the being that she can perform high kicks while still wearing a kimono. Jun eventually graduated from the academy and became Tōtsuki's youngest lecturer to research on spices. When she first met Tomoe, she noticed him to be an empty person who seemed to have lost his future and wanted to die.

Hotsuma

Motivation is a talent, too.

Shiki Ryougi

Nasu: She has a monthly allowance of 50,000 yen. Similarly to Megumi, Jun is extremely polite, has low self-esteem, and constantly apologizes for her actions. When Shiki goes to Garan no Dou, Mikiya hands over Kanesada Kuji to Shiki.

Shukaku

Despite the animosity the village showed for Shukaku and its host, the elderly priest held no ill-will towards the tanuki nor the villagers, viewing it as an equal and was content as long as Shukaku hadn't forgotten his name. Despite showing reluctance to Gaara's request for its help in sealing, Shukaku decided to comply only for the opportunity to surpass Kurama. During the last days of the Sage of Six Paths, Shukaku in its youth looked the basically same as it does presently, only much smaller with shorter ears and more spaced out markings.
