### Climate Change, Coral Reef Ecosystems, and Management Options for Marine Protected Areas, Environmental Management

State actions, although typically covering a smaller area than federal actions, can have a significant impact on fishery resources because nursery areas and other important habitats for many species are located nearshore. This final rule also implements new requirements under Amendment 16 for establishing acceptable biological catch ABC , annual catch limits ACLs , and accountability measures AMs for each stock managed under the FMP, pursuant to the Magnuson-Stevens Fishery Conservation and Management Act Magnuson-Stevens Act. NPS underwent a substantial public consultation process leading up to the finalization of the GMP, including 22 public meetings attended by more than 1,000 people and received 43,000 pieces of correspondence.

### How To Reform and Strengthen Fishery Habitat Protection

. Adds more restrictions to Exempted Fisheries Program; establishes a procedure for Council to recommend modifying northern shrimp gear to reduce bycatch; expands management unit to include silver hake, ocean pout, and red hake; establishes management for Cultivator Shoal whiting fishery; tightens restrictions on carrying small mesh in the Regulated Mesh Area; requires a 5. However, the West Pacific contains more than 99 percent of highly or fully protected marine protected area in the United States because of the four large remote MPAs located there.

### How To Reform and Strengthen Fishery Habitat Protection

State of the Coral Reef, AS. Assessing the effects of non-point source pollution on AS's coral reef communities.

### Climate Change, Coral Reef Ecosystems, and Management Options for Marine Protected Areas, Environmental Management

A benthic terrain classification scheme for AS. AS Coral Reef Advisory Group recent accomplishments. Adjusted the Gulf of Maine cod trip limits; allows vessels to carryover 10 days-at-sea; and provided exemptions for vessels fishing in the NAFO Regulated Area Except: Section 648.

## **Impacts of lost fishing gear on coral reef sessile invertebrates in the Florida Keys National Marine Sanctuary**

Status of the coral reefs in Micronesia and AS.
