Soviet Style Detente: A Continuing U.S. Dilemma

Nineteenth century statesmen were able to take the solidarity of their nations pretty much for granted, so that their decisions could confine themselves to the instrumentalities of external power and the imponderabilities of external relations. Moreover, the subsequent American trade embargo on the Soviet Union and the boycott of the 1980 Moscow Olympics ended détente even more abruptly and left a sense of both fear and antagonism between the superpowers. Détente and Ideological Struggle

For example, until March 1974, months after the Arab-Israeli war was over, the Soviets urged the Arab oil producers to continue their embargo against the Western states and Japan. There are several concepts from the Contemporary International Problems text that we will be reviewing. It is completely understandable that if the socialist countries cited as preconditions for détente the resolution of the social question under capitalism, they would be accused of sabotaging it.
