Perhaps I should also make you aware that there is also pending in the legislature of this state a cap on non-economic damages. Exposing and Understanding Juror Attitudes.

The Deterrent Effect of Medical Malpractice Laws

My family and I will always be grateful for the compassion that they showed us.

Developments in Texas “paid and incurred” law for medical bills

It found similar rates in South Carolina at 19 ½ percent. In those states, punitive damages are capped so that the plaintiff cannot receive more than two or three times the amount of actual compensatory damages. Non-economic damages include physical discomfort, emotional distress, mental suffering, and other misfortunes that are not tied to specific economic losses such as medical bills and lost wages.

Impact of Tort Reform on Personal Injury Cases

Again, in 2010, Medical Mutual announced another 31% premium reduction 11% plus 20%.
