But then I got to the first interlude - short and very poetic legends of Gethen which help shed light on the nature of this world and help us see the events of this story in a different context and different light.

And between the political and social commentary, in the icy landscape of Gethen, there is an unmistakably human story of loyalty, tragedy and love. Discouraged, Ai decides to travel through Karhide, as the spring has just begun, rendering the interior of the frozen country accessible. Every aspect of life from traveling to housing to eating is dominated by just how frigid the world is.
