## The End of Capitalism. J.K. Galbraith versus K. Marx and J.A. Schumpeter : Innovation, Evolution and Economic Change New Ideas in the Tradition of Galbraith

The neglect of Goethe, his work in general, and Faust in particular, in English-speaking countries, is notorious. In a departure from the received view on the nature of the works of Marshall and Schumpeter, the contributors explore their themes in terms of an evolutionary vision and method of evolution; social science and evolution; conceptions of evolution; and evolution and capitalism. MArginalism, too, has altered over %the years.

## Marginalism and Marxism, History of Political Economy

These essays will help advance our thinking about environmental conflicts, and they include papers analyzing international trade in chocolate, palm oil, and coffee in addition to other contributions advancing theory about patterns of environmental inequalities in the world economic and political system. ## From Political Economy to Economics: Method, the Social and the Historical ...

Several generations of economists, however, showed themselves dissatisfied with the answers given by the neo-classical school, especially to the problems of investment the rate of interest, money the quantity theory of money and periodical crises.

How do the decisions made by big firms impact on the economic policies of the industrial nations? In the end it managed to do this only by introducing, with Böhm-Bawerk, the notion of a roundaboutness of production which becomes more and more intensified as capital goods increasingly enter into the process.
