Mass media in Egypt

Modernity and Culture: From the Mediterranean to the Indian Ocean. The French parliament further amended the Press Law in 2004 to make it a crime to discriminate against or defame individuals on the basis of their sexual orientation. It also places strict obligations on journalists to adopt specific regulatory policies, contracts, and to discipline their employees.

The right to disclose those who may deceive him by providing false news and information and those who might deny their earlier words because of fear so that they may be called to account before the authorities. Defamation of private citizens was treated far less seriously than that of injuring public officials; defaming a man in his public capacity could be punished by a year's imprisonment and a fine of 3,000 , while injuring a private citizen could cost as little as 18 francs or six days in prison.

It has the right to broadcast or re-broadcast sports tournaments in Egypt and to allow others to do so in exchange for a proportion to be agreed upon provided that it is not less than 10 percent of the right of broadcasting. Prior to 1881, French law had a complex and unclear set of laws that regulated public commentary.
