Meet the First Family of Molossia

Its surface is a hilly plain, with an average elevation of 482 feet 147 metres , cut by a deep network of river valleys, ravines, and gullies. His realm extended north to the , while the southern part of Moldavia was still occupied by the Tatars. The latter an initially independent and later autonomous state existed from the 14th century to 1859, when it united with as the basis of the modern state; at various times, it included the regions of with the and much of.

List of rulers of Moldavia

In and , the Hungarians were victorious in a battle against ; the conflict was resolved by the death of , in. Winds tend to come from either the northwest or the southeast. Baugh jokes that the citizens of Molossia may never want the war to end.

Moldova

. Ioan Vodă's revolt against the Ottomans ended in his execution. The Wallachian prince deposed Prince Ieremia in , and managed to become the very first monarch to unite Moldavia, Wallachia, and Transylvania under his rule; the episode ended in Polish conquests of lands down to , soon ended by the outbreak of the and the reestablishment of Ottoman rule.

Moldavia

I was going to do an interview with a Greek newspaper and they called at three in the morning and they were really belligerent about using the name Molossia. In practice, a new fundament to reigns in Moldavia was created by the , and a period of Russian domination over the two countries which ended only in 1856: begun as a military occupation under the command of , Russian domination gave Wallachia and Moldavia, which were not removed from nominal Ottoman control, the modernizing the first document resembling a , as well as the first one to regard both principalities. In the early , the , a possible - state of , were present, alongside the , in much of the region's territory towards , the Brodniks are mentioned as in service of.

Moldavia

Polish incursions were dealt a blow by the Ottomans during the , which also saw an end to the reign of.

Moldova

The forced the Ottoman Empire to cede all of its holdings in what is now to Russia, which made Russian presence much more notable, given that the Empire acquired a common border with Moldavia. See also , for the rulers of , a part of this territory which became independent in the 20th century.
