So, instead of defending their position, they will instead bring up a separate topic into the debate to change the conversation onto something that is more comfortable to the person using the fallacy. Fallacies are commonplace in a wide variety of situations: in politics, advertising, media, as well as in our everyday discussions, whether online on social media or in-person with our neighbors. An Exegetical Fallacy EF is when the original language is misunderstood, misused, or misapplied to say or teach something that was not intended by the language.
