**State aid: guidance**

This will include a £7.

**Non**

Scottish Water will share and demonstrate the approaches it has taken to reduce energy use and generate renewable energy with the public sector in Scotland and in particular seek partnerships around heat from sewers and bio-gas production. Those evaluating the various grant applications will be closely examining where their money will go and how it will be used on the farm. These regulations require that slurry produced around the steading has to be collected and contained.

### Funding

Lloyds Bank is accepting loan applications from existing business customers for the Bounce Back Loan Scheme. However, there was always some degree of administrative decentralisation. However, more information, guidance and online applications is available on the.

### Funding

Prevention of environmental pollution from agricultural activities code of good practice. However, you do need to meet the same eligibility criteria.

### 4PP: Appendix 1

It is open to firms 'making a material contribution to the UK economy' such as employing large numbers of people or having their corporate HQ in the UK. We have taken action to reduce the use of plastic cotton buds and microbeads and will take further action by banning more problematic single use plastic items, such as cutlery, plates and food and drink containers, by 2021.

### Grants

The programs also make funding available to individuals to finance vital improvements necessary to make their homes decent, safe, and sanitary.

## **Educational grants for students from trusts and charities**

We are aiming to meet or exceed the standards set out in the European Union's Single Use Plastic Directive. Local Restrictions Support Grant Scheme Businesses in England which are required to close due to local or national lockdown measures are eligible to receive grants of up to £3,000 per month based on the rateable value of their premises.
