Globalization

New York: Cambridge University Press. The case for the existence of a fundamental change in the political-economy of globalization runs through both economic and political change. And internationally, the power that propelled the world to its highest level of globalization ever, the United States, is backing away from its role as policeman and trade champion of the world.

The Political Economy of Globalization

Moreover, the citizens of the initiating countries also see their rights curtailed. Despite the internal challenges it faces, it continues to try to regulate markets beyond national borders. A decisive answer to this question remains elusive.

World Review of Political Economy

Extensive unionization and strong growth in the leading manufactured goods sectors underwrote high wages and job stability.

GLOBALIZATION AND INTERNATIONAL INTERDEPENDENCE.

This chapter, focusing in particular on international trade, seeks to identify the sources of this change in fundamental changes in the underlying economies of the core members of this order the transition from an industrial to a post-industrial economy and the globalization of production structures and the domestic and international political foundations of that order domestically the rise of antiglobalist populism, and internationally the emergence of China as a global superpower. Trade certainly started to become global, and it had even been the main reason for starting the Age of Discovery. Before the 1997 financial crisis, it seemed possible.

GLOBALIZATION AND INTERNATIONAL INTERDEPENDENCE.

The Political Economy of the Service Transition.

Top Ten Global Economic Challenges: An Assessment of Global Risks and Priorities

With the right skills and training, workers can become the agents embracing, driving and realizing the potential of technology, rather than being displaced by it.
