## Journey of the Universe (2011)

Evolutionary philosopher Brian Thomas Swimme and Yale historian of religions Mary Evelyn Tucker have crafted an elegant narrative that both illuminates and celebrates the profound role humans play in the flourishing of the Earth. In each community: by a of scientists and engineers providing an authentic view of the nature of science to thousands of students—one classroom at a time; for potentially hundreds of educators on powerful compendia of; programs designed for; world-class; and distance learning opportunities, together with conceptually powerful experiences, all provide multiple and mutually leveraged pathways for student learning. Many of the links in the program summary below are to the official.

## Journey through the Universe I Program Overview

I wish that every community could have a Journey program as dynamic, successful, and powerful as ours has become. The online audience will be able to ask questions and discuss the talk before enjoying virtual stargazing from Hawai'i and Arizona.

## Journey Through the Universe 2021

Last year, the program reached more than 8,800 students in 300 classrooms, and more than 80 astronomy educators shared their passion for science with students. He recalls attending a talk by a planetary scientist. Jeff Goldstein has been Principal Investigator and Lead Contractor on these Awards.

## Journey Through The Universe

The Emmy Award winning JOURNEY OF THE UNIVERSE tells an epic story of cosmic, Earth and human transformation from The Big Bang to today.

## Journey through the Universe I Program Overview

Evolutionary philosopher Brian Thomas Swimme and Yale.
