History of the race and intelligence controversy

Some white kids, some black kids, and some Asian kids would have certain genes that marginally favor intelligence. Line 1

gives a median IQ of 54 for Bushmen of the Kalahari desert from three studies in which the IQ ranges from 48 to 62. .

Yes, let's talk about race and IQ

Also, for the record, all of these psychologists are just that--psychologists.

Statistics Show IQ Disparities Between Races. Here's What That Really Means

Theories based only on culture cannot explain all the data shown in Chart 1. Their intelligence was anchored in everyday reality.

History of the race and intelligence controversy

It should be clearly understood what Flynn is actually saying in this study.

Can we have an open debate about IQ, genes, and group differences? Reassessing the legacy of James Flynn

The political scientists and Mary Jo Bane, also from Harvard, recalculated the heritability of intelligence as 45% instead of Jensen's estimate of 80%; and they calculated that only about 12% of variation in income was due to IQ, so that in their view the connections between IQ and occupation were less clear than Jensen had suggested.
