I started carving on the model with the wooden sticks and jute on the tableside. I think it would be really a pity to loose all the details in the plaster.

Plastik

I had to make the surface of the plaster, which will get in touch with the second half, very smooth and clean that the new plaster cannot make a connection with the first dry one and that we can lift the second part easily from the first one. Diese lösten sich wunderbar leicht, da die Gipsschichten eine glatte Oberfläche hatten und sich somit leichter voneinander lösten.

Sculptures / Plastiken und Skulpturen

The extremely simple form and elegant palette of timber options make the chair suitable for every interior. Razvijeni su kojima se uvećava brzina biodegradacije plastike. PTFE je poznatiji kao teflon.

Galerie Wortmann

Die Form lag mit den gipsgetränkten Jutetextilstreifen und Holzstöcken nach unten auf dem Tisch und ich begann, wie bei der ersten Hälfte, die größten Teile des Gipeses um das Modell herum zu entfernen. And then it felt very heavy on my breast and my belly that they had to stop pouring plaster over the upper part of my body. We highly recommend arranging a suitable time for collection and checking whether any assistance with manual handling is required.

Galerie Wortmann

On the next day I could start to get into the details and start to carve carefully the plaster off the model. We require 1 working day to alter postage costs where applicable.

Galerie Wortmann

Ime polja nije proisteklo iz upotrebe plastičnih materijala, nego is opšijeg značenja reči plastičnost u smislu sposobnosti promene oblika.
