However, those animals are not given the chance to maximize skeletal strength because of this. ICEEP 5, 6 and 7 are available from the Equine Veterinary Journal Bookshop.

CAB Direct

In addition to an increasing proportion of type I and oxidative fibers, a change in fiber size occurs. The difference is present in early life and becomes more pronounced in the mature animal. In addition, frequent sampling from the same animal also requires confidence that a similar site can be sampled.
