## Nursing Theorists — American Nursing History

First, the theory of self-care is the performance or practice of activities that individuals initiate and perform on their own behalf to maintain life, health, and well being. The Worth and Jane Daniels Initiative supports this course targeting pre-licensure students, as well as a course at the advanced practice level for resident physicians and pharmacy students to learn the skills of interprofessional collaboration while caring for complex community-based older patients. Within an ethical framework, ethical and professional issues affecting the individual, the practice of professional nursing, and the profession will be explored.

## An application of Johnson's behavioral model: a case study

Focuses on application of evidence, nursing process, communication skills and critical thinking when providing nursing to children. It integrates biomedical, psychological, social and nursing aspects of care based on age, gender, culture, and ethnicity.

## Master's in Nursing

It integrates biomedical, psychological, social and nursing aspects of care based on age, gender, sexuality, culture, and ethnicity. Content is organized into seven modules: 1 Local to global health care; 2 Ethics; 3 Interprofessional education; 4 Leadership principles; 5 Health care delivery system; 6 Quality and safety; 7 Professional roles in nursing. This course will also include a substantial online component.

## Nursing, Bachelor of Science (B.S.), accelerated program < Virginia Commonwealth University

Our deep roots in caring set Highland nurses apart.

## An application of Johnson's behavioral model: a case study

Pre-Requisites: Some study or experience with the target language.

## Nursing, Bachelor of Science (B.S.), accelerated program < Virginia Commonwealth University

This course raises questions about and opportunities to impact issues of quality and safety, ethical practice, patient advocacy, and social determinants of health. It integrates biomedical, psychological, social and nursing aspects of care based on age, gender, culture, and ethnicity. All prerequisites must be completed with a minimum grade of C.
