## Five Common Glaucoma Tests

What Are the Symptoms of Glaucoma? The early stages of open-angle glaucoma, the most common form, usually have no warning signs.

## Eye Health Quiz

The front of the eye is filled with a specific fluid called the aqueous humor.

For example, increasing congruity similarity between both eyes generally indicates a defect that is located in higher cortical areas of the brain, and a loss of function in the lower visual field can point to problems with fibers of the upper retina or nerve head. This is called intra-ocular pressure IOP. Children and babies can also develop glaucoma.

## What You Should Know

Kindly answer either True, False, or Not Sure. The patient focuses on the dot with one eye at a time to see if any areas of the grid appear distorted, blurry, dark, or blank, which can indicate a visual field deficit. Eye drops are used to dilate the pupil so that the doctor can see through your eye to examine the shape and color of the optic nerve.
