This is accomplished by identifying areas of non-compliance and providing crime prevention information.

Alcoholism In The Workplace: A Handbook for Supervisors

However, relapses must be dealt with and seen as a sign to the alcoholic that there are areas of his or her treatment and recovery that need work.

Alcoholism In The Workplace: A Handbook for Supervisors

The most effective way to get an alcoholic to deal with the problem is to make the alcoholic aware that his or her job is on the line and that he or she must get help and improve performance and conduct, or face serious consequences, including the possibility of losing his or her job. In the workplace, the costs of alcoholism and alcohol abuse manifest themselves in many different ways.

The associated increased health care costs and lost productivity are passed along directly to the taxpayer, and to each and every one of us. The project represents a fundamental change from the traditional law enforcement philosophy. This threat is usually communicated to the employee through some type of an adverse or disciplinary action and is accompanied by a referral to the Employee Assistance Program EAP which will refer the employee to an appropriate treatment program.
