Millets pose production and consumption challenges; MP's Dindori project shows the way forward

According to her, farming of millets deserves encouragement especially in view of their climate resilience, short cropping duration and ability to grow on poor soils, hilly terrains and with little rain. Mihir Shah, Member, Planning Commission on the stage Ms. The consultation aimed to bring together civil society, state and central governments to chart out a road map for strengthening MGNREGA in the state.

Millets pose production and consumption challenges; MP's Dindori project shows the way forward

Back in 2015, our Non-Profit Organization realized that by working together we could overcome our challenges much more efficiently, and that is why we ultimately decided to launch Nitya Skill Development Organization Samiti. Mihir Shah, in his address, began by congratulating the MP government for the initiatives it had taken on MGNREGA. Mihir emphasised partnership and dialogue between state government and civil society.

Home

The identified farmers were supplied good-quality seeds and trained by scientists from the Agricultural University in Jabalpur and the local Krishi Vigyan Kendra —on field preparation, line-sowing as opposed to conventional broadcasting by hand and application of compost, zinc, bavastin fungicide and other specific plant protection chemicals. The simplest way to introduce energy management is the effective use of energy to maximize profit by minimizing costs.

MGNREGA in Madhya Pradesh: Opportunities and Challenges

Chief Minister delivered the inaugural address The Chief Minister, Shri Shivraj Singh Chauhan then gave his inaugural address.

NSDOS

The Government of India has set up Bureau of Energy Efficiency BEE on 1st March 2002 under the provision of the Energy Conservation Act, 2001. The state of Madhya Pradesh in India has been witness to a revolution in governance, infusing power and confidence in ordinary people at the village community level by systematic decentralization of power.
