## 4 Economic Challenges Facing Poland in 2020

The improvement will come mainly from a sharp reduction of subsidies and the elimination of various tax exemptions.

## Poland in an integrated European economy: Are foreign language skills valued by employers in the Polish labor market?

Review of Educational Research 80: 207-245 Angouri J 2014 Multilingualism in the workplace: Language practices in multilingual contexts. Henryk Kierzkowski, Marek Okolski and Stanislaw Wellisz.

## 4 Economic Challenges Facing Poland in 2020

Council of Europe, Council for Cultural Co-operation, Strasbourg Prior A, Gollan T 2011 Good language-switchers are good task-switchers: Evidence from Spanish-English and Mandarin-English bilinguals. It was offered as the model in the early period, particularly with its successful mass privatization program and low unemployment. AAPOR, Oakbrook Terrace Adamchik V, Hyclak T 2017.

## Poland Into The 1990s: Economy And Society In Transition

In Hungary and Estonia male life expectancy between 1990 and 2001 did not increase as much as female life expectancy due to a much larger decrease during the first several years of the transition.

## Economic Transition and Elections in Poland

Labour Economics 32: 86-98 Toomet O 2011 Learn English, not the local language! Other fuel resources include small amounts of petroleum and moderately large deposits of. Spurred by growing economic stagnation, mounting inflation and the increasingly obvious ineffectiveness of the Communist leadership, democratic agitators, primarily trade unionists, became more and more militant in their demands for political revolution. In time domestic producers were able to upgrade their production capacity and foreign direct investment was attracted to the transition economies.

## Poland's transformation is a story worth telling

LICOS Centre for Transition Economics Discussion Paper No. There can be no doubt that Poland greatly benefited from its transition to a market economy, but these overall gains did come at a cost. Employment tends to be in very large enterprises, to the almost complete exclusion of small and medium-size firms.

### **How Poland Became Europe's Growth Champion: Insights from the Successful Post**

It was only one symptom of a decomposing country. Poland's most fundamental financial need is for a deep and permanent reduction of its external debt burden. As imports grew and exporters failed to respond to opportunities in world markets due to the poor quality of their products and lack of resources for investment, the trade deficit expanded, putting downward pressure on the exchange rate.

### **Poland's transition to a market economy and its lessons about change**

The papers are classified according to five themes: I Energy Efficiency and Conservation Policy, II Education and Training for Energy Efficiency, III Industrial Energy Efficiency Management, IV Energy Efficiency in Buildings, and V Energy and Environment.
