## Achievement measures

The idea here is not to draw a conclusion about the general intelligence of the child being tested, but rather is to ensure that each student is placed in a classroom where he or she will have the best opportunity to learn. This section requires the student to utilize skills relating to understanding, interpretation ,critical analysis, and reading strategies.

## Stanford Achievement Test

Experimental — control, posttest only; unreported, unreported; arithmetic, language, reading; E-21, C-unreported; N parents-63; unreported; intelligence; SRA Mental Ability Test, Gates Primary Reading Test, California Achievement Test; t-tests.

## Tests, Tests, Tests

Retrieved Feb 18 2021 from Deaf and hard of hearing students have, on average, lower academic achievement than hearing students.

## The Ultimate Guide to the Stanford Achievement Test

The authors explain that the more gifted students were more likely to take foreign languages, but that for each group, years of study led to improved composite ACT scores, with the highest effect on scores in the English subsection of the test. Students' responses to the survey also indicate high level of satisfaction with the program. Sequence of symbolic figures, becoming progressively more difficult.
