Haiku background : Poetry through the Ages

Ōgai began as a writer of partly autobiographical fiction with strong overtones of German Romantic writings. But the haiku remained an art of expressing much and suggesting more in the fewest possible words. Since Zen is the most important philosophical tradition influencing Japanese haiku, the haiku poet aims at understanding the spirit of nature.

Another important thing to know about Santoka is that his life was equally as interesting as his poetry. Sōseki wrote mainly about living in a Japan that had been brutally thrust into the 20th century. Basho was interested in expressing how his feet, anyone's feet, would feel when placed on a wall in the house on a warm summer afternoon.
