Also of considerable interest are the questions which arise when the Chinese language comes into contact with other languages, be it in the controlled context of a language class or on the streets of an emigrant community. This thesis is to contribute to the question.

150 Common Basic Chinese Verbs List to Make You Verbal

I would be giving sentence examples of all the Chinese Verbs slowly. This Handbook contains eight sections: history, languages and dialects, language contact, morphology, syntax, phonetics and phonology, socio-cultural aspects and The study of grammaticalization raises a number of fundamental theoretical issues pertaining to the relation of langue and parole, creativity and automatic coding, synchrony and diachrony, categoriality and continua, typological characteristics and language-specific forms, etc.

[PDF] A Case Study on the Grammaticalization of GUO in Mandarin Chinese

Focusing on a group of twelve directional particles, this book tracks their grammaticalization pathways from full-fledged directional verbs, to directional particles indicating meanings relating to tense-aspect, modality, and quantification, in the post-verbal position. All chapters are contributed by leading scholars in their respective areas.
