## Growing Vegetables Indoors Under LED Grow Lights

Plants use some wavelengths of light very well, other wavelengths not so well, and other wavelengths not at all. However, my status at The University of North Texas as one of only two students at the time concentrating in botany, my curious reputation as a gardener, and my college job as a garden-center employee made my phone ring a bit more frequently than my social status warranted.

## Growing Plants With LED Lights : 6 Steps

Fertilizer Tip: Leafy greens and herbs aren't heavy feeders, but since you'll be harvesting from them regularly, be sure to feed them monthly with a natural liquid fertilizer that contains humus or seaweed, such as.

## Growing Vegetables Indoors Under LED Grow Lights

Seedlings, especially vegetables and other that thrive in full sun, require 1,000 foot candles or more of light intensity, so intensive grow light fixtures that contain at least four light tubes are necessary for healthiest growth.

## Growing Seedlings Under Lights [Fact Sheet]

With a set of grow lights, you can grow many plants indoors, including houseplants, orchids, and even some fruit and vegetable crops.
